January 24, 2017

Dear Valued Customer:

We have recently received reports of 16ELBLK lids produced in Horse Cave, KY fitting too loosely. In order to maintain customer satisfaction with Dart products, we are recalling these lids from our distributors and from their customers.

We have identified the issue to be limited to those 16ELBLK lids produced in Horse Cave (Dart plant number 1011) between November 15, 2016 and November 27, 2016.

Case labels are printed on each carton (an example is provided below), and cartons of recalled 16ELBLK lids are labeled as follows:

Production Date	Batch
November 15, 2016	5000D64620
November 20, 2016	5000D83472
November 27, 2016	5000E02581
November 27, 2016	5000E03216

Please check your warehouse inventory, separate all 16ELBLK lids with case labels consistent with the examples shown above, and contact Dart Customer Service at 800-248-5960 to report how many of the cartons you have in inventory.

Please immediately stop all sales of the recalled product, including any shipments in-transit to customers.

As soon as possible, please contact your customers who have purchased the recalled lids, ask them to separate them and return them to your warehouse. Once we know the quantity of product to be returned, we will then arrange to pick up the recalled product from your warehouse and for delivery of a replacement order.

Please call Dart Customer Service at (800)248-5960 with any questions regarding this product recall.

Thank you for your prompt attention and continued support.
